

## Work Party Report March 2025.

The work party meet at church on the third Saturday of each month between 9 and noon, to carry out a variety of jobs in All Saints Church and St Johns Hall.

These include re-fixing loose wood blocks in the Church floor and renewing safety tape on the many steps at All Saints.

The handrail for the Boiler Room steps was repaired.

We re-stain the external oak doors; West Doors, Porches and Vestry.

Issues with toilet doors and the south porch latch were dealt with.

Repairs were made to the Advent star.

Borders around the Church and Hall were tidied and, there was clearing of roof and ground level gullies and gutters.

Yearly jobs included varnishing the hall floor and cutting the hall and memorial garden hedges in August.

A big thank you to all members of the work party for their hard work and expertise. New members are always welcome to join us, just pop along.

David Dean
